Dear Liz

***Ethical Approval Application***

Thank you for submitting the ethical approval form and details concerning your project:

***Usability Testing of Software for Computing Integrating Project modules  
(PRDC251, PRCO203, PRCS251)***

I am pleased to inform you that this has been approved subject to the following condition:

- *Appendix E – Sample Questionnaire*  
At the beginning of the questionnaire, include a short paragraph describing the intended research and also state that any data collected from the questionnaire will only be used for this research and not for any other purpose.
- *Section 1.2 and Appendix A*  
Attaching an ID number on the information sheet would mean that the data is not completely anonymised. Consider stating that withdrawal is possible during the session, and up to a specified time after the session when the data will be completely anonymised after which withdrawal will not be possible.

Kind regards
